Strasbourg, France • +33 6 18 67 03 04 • minhstrasbourg@gmail.com • nguyen-minh.dev • github.com/minhouuuuuuu • linkedin.com/in/nguyen-minh-dev

Creative Web Developer specialising in motion-driven interfaces and immersive 3D experiences. 4+ years building production-grade React, Next.js, and GSAP applications for agency clients — from scroll choreography at 60fps to WebGL and custom shaders. Currently crafting digital experiences at Izhak Interact Agency in Strasbourg while completing a Master's in Web Development.

PROFESSIONAL EXPERIENCE

Izhak Interact Agency, Strasbourg, France Sept 2024 – Present

Creative Web Developer (Apprenticeship)

- Built production-grade interactive web experiences for 20+ agency clients using PHP, Lenis, GSAP, Motion, and TailwindCSS, shipping to 10000+ monthly visitors across deployed sites.
- Architected motion-driven interfaces with GSAP, Framer Motion, and Lenis, achieving consistent 60fps scroll choreography and reducing Largest Contentful Paint (LCP) by 20% on flagship client projects.
- Collaborated with 2 designers and 3 project managers across the full delivery lifecycle, from Figma handoff to post-launch optimization.
- Refactored and optimized 3+ legacy client projects per month, improving Lighthouse performance scores from 75 to 95 on average.

Viettel Network, Hanoi, Vietnam Apr 2024 – May 2024

Software Engineer Intern

- Contributed to internal tooling serving 5000 internal users at one of Vietnam's largest telecom operators using Vue.js and NestJS, working in an English/Vietnamese cross-functional team of 20 engineers.
- Implemented 20 REST endpoints and 3 dashboard components covering network operations data, processing 20000+ data points per day.

Hasu No Hana, Remote (Hanoi, Vietnam) Dec 2023 – May 2024

Webmaster & Developer (Freelance)

- Designed, built, and maintained the company website with WordPress and PHP, including custom theme development, performance tuning (achieving 95 Lighthouse score), and SEO improvements that increased organic traffic by 20% over 3 months.

BDR Thermea France, Mertzwiller, France Sept 2022 – July 2024

Front-End Developer & Web Designer (Apprenticeship, 2 years)

- Delivered 2 production prototypes for an internal industrial application from Adobe XD specs, implementing the front-end in ReactJS with full interaction parity.
- Co-organized and contributed to a 5-day Design Sprint with 6 cross-functional stakeholders, delivering the final high-fidelity prototype that was approved for production.

PROJECTS

Personal Portfolio : nguyen-minh.dev

Next.js · Three.js · GSAP · Framer Motion · Lenis · TypeScript : Creative developer portfolio featuring interactive WebGL experiments, generative art (ASCII fluid, physics particles, flow fields), and cinematic scroll experiences. Built with performance and craft in mind.

Askar Site : askar-site.vercel.app

Next.js · Lenis · Framer Motion : Interactive website for a travel agency with immersive 3D animations and cinematic scroll transitions.

La Brasserie Licorne : brasserie-licorne.com

PHP · GSAP · Tailwind · JavaScript : Production agency site for a historic French brewery, with GSAP-driven animations and custom UI

Salpa Restauration : salpa-restauration.fr

EDUCATION

Strasbourg Ynov Campus

Sept 2024 – Oct 2026

Master's Degree, Expert in Web Development

- Pursuing a 2-year RNCP Level 7 (EU equivalent to Master's) professional degree in full-stack web development, ranked #5 in France for Web Development by Eduniversal in 2025.
- Curriculum focused on scalable web architecture, full-stack JavaScript/TypeScript (React, Next.js, Node.js, NestJS), DevOps fundamentals (Docker, CI/CD, cloud deployment), and product engineering.
- Program completed in work-study (alternance) format, alternating between coursework and apprenticeship at Izhak Interact Agency.

IUT de Haguenau — University of Strasbourg

Sept 2021 – Sept 2024

B.Sc., Computer Science / Web Development (BUT MMI)

- 3-year Bachelor's degree (180 ECTS, RNCP Level 6) awarded by the University of Strasbourg, specializing in Développement web et dispositifs interactifs (Web Development & Interactive Systems).
- Coursework: algorithms, databases, software engineering, front-end development & integration, service deployment, UI/UX design, project management, and digital communication strategy.
- Completed in apprenticeship (alternance) for the final 2 years at BDR Thermea France, balancing university coursework with full-time industry work.
- Part of a national network of 32 MMI departments across France, with strong industry recognition for hybrid creative-technical profiles.
